Upon review of the 2006 year, We at the North Branford Chamber of Commerce are pleased with the progress we have made toward our main goal of enhancing business opportunities for the success of our members and for the benefit of the community. But we are not satisfied! There is still much more to do and, with the participation and enthusiasm of our new Board members joining our continuing Board members, we will surely achieve our goal.

**As part of the Chamber's main goal, with our increased participation with the Town Manager's Office, the Economic Development Commission, and other regional organizations, we hope to provide our members with more information and opportunities regarding available economic development programs and support to assist them in achieving their future success. We also realize the importance of this relationship as a way of expressing the membership's positions on various issues that affect local business and the community at large, specifically the plans for the continuing reconstruction and redesigning of Route 80 and the town center proposal for Route 22.**

The Board has also determined that there is a significant need for the formation of specific committees

comprised of both Board members and Chamber members, addressing such issues as membership enrollment and contact, dissemination of news and information, arranging periodic and annual events, and planning for informational seminars and roundtable discussions, all with the intent of achieving our main goal of ultimately serving our members and community for their benefit. The Board believes that with this committee arrangement we can accomplish our goal much more quickly and efficiently.

Lastly, as part of the Chamber's role of serving our members and increasing public awareness or our membership, we have again joined with the Town Department of Parks and Recreation to renew our commitment as one of the sponsors of the Annual Baked Potato and Roasted Corn Festival held annually the first week in August. Each year has been much more productive and rewarding than the last. This year we are working toward adding a business expo tent where members can reserve space to set up displays and provide information about the goods and services they offer to the community. We feel this is one of the best ways to strengthen our commitment to serving the community while also exposing the local and outside visitors to our businesses.

We look forward to 2007 as a year that will bring us all closer to our goals. The Chamber has published this annual directory for your use. Please refer to it often and support our local businesses.

Sincerely,  
Lucien A. Rizzo, President  
North Branford Chamber of Commerce

# Count on our Commitment at this critical time.

At UI, we've been focused on serving our customers' electricity needs for more than 100 years. It's a commitment that is now more important than ever, as soaring energy costs have led to higher electric rates across the region. Because we do not produce the electricity we deliver nor "mark up" the price, we cannot directly control these rates. But we are committed to working with all parties to develop a long term solution.

We also hold tight to our commitment to the community, which is why we are proud to continue supporting the North Branford Chamber of Commerce. As we work to secure a brighter future, you can be assured we will keep you fully informed on this critical issue.

You can count on our commitment.
